\*\*ET The attention of all who ship Cotton seed to Memphis is called to the following guotation from the Ledger, of the 31st of December:

\*\*A rich reward is enjoyed this season by the Cotton-seed off men. The raw material costs no more than last year, freights are as cheap, or cheaper, and their productions are largely advanced in value. Crude oil is now worth at New Orleans \$7280 per ton, and cake \$22 to These figures, we are assured, are substantially correct, and in view of the low prices paid in Memphis for Cotton seed—an arbitrary price being fixed all the season round by the Cotton-seed Association—we feel that some action should be taken for our common protection. So safe are the oil-works here in the price fixed, that no changes were made on account of finctuations in New Orleans, from which that is no appear except by the misted action of the standard of the planters of the Mississippi Valley who ship seed to Memphis, to be held in this city, at the PRABODY HOTEL, at 10 o'clock, on Monday, January 19th, to take into consideration our interests and the best means for their protection.
